Project name: 5/6 Art Option

Person responsible: Miller, Chandra

Purpose and timelines: This course focuses on three major components of visual learning: Drawings (the way we record visual information and discoveries), Compositions (the way images are created to share meaning) and Encounters (personal responses to visual imagery). Following the styles of well-known artists, students will have many opportunities to draw, paint and sculpt using a variety of materials. The program is further designed to allow students to be creative, to develop skills and knowledge, and to develop appreciation and respect for the artistic efforts of others. Purpose of the project is communicated to stakeholders via our website.

Revenue to collect: Student fee will be collected.

Items/Services to be purchased: Art supplies, such as paper, paints, pastels, clay, books and artist's canvas will be purchased with the funds.

Surplus/Deficit Handling Plan: Should there be a surplus, the money will be used to purchase additional art supplies or to put on an art exhibit, to which all of the stakeholders will be invited.

---

Project name: 5/6 Coding

Person responsible: St. Jean, Marc

Purpose and timelines: This option will introduce coding to our students. Coding enables our students to think critically and develop their problem-solving skills. Using their computing devices, students will learn how to program Sphero robots to do a variety of different tasks. Students will also be learning to code using the Scratch program to create their own games, animations and stories.

Revenue to collect: Student Fees are collected.

Items/Services to be purchased: The money will be used to purchase materials and on-line resources for programming.

Surplus/Deficit Handling Plan: Any surplus will go to purchase items which will be used throughout the course of the option class. Ex. - on-line resources, computer programs and coding equipment... Surplus may also be used to support student life and activities in the school.

---

Project name: 5/6 Healthy Eating

Person responsible: Slupek, Annick

Purpose and timelines: Students will learn to make healthy decisions when it comes to food choices. They will familiarize themselves with the Canadian Food Guide and discover how to transform and prepare some of their favorite recipes into a healthier

version. The students will also learn about safety around the kitchen and they will have the opportunity to further develop their cooking skills.

Revenue to collect: Student Fees are collected.

Items/Services to be purchased: The money will be used to purchase kitchen utensils, ingredients and other kitchen materials.

Surplus/Deficit Handling Plan: Any surplus will go to purchase items which will be used throughout the course of the option class. Ex. - cookbooks, ingredients. Surplus may also be used to support student life and activities in the school.

---

Project name: 5/6 Media Arts

Person responsible: Gray, Danny

Purpose and timelines: Students in this option will explore various ways to create graphic art. Some areas they explore are photography, stop-motion videos (people and miniatures) and green screening. Students also create their own cartoon animation (frame by frame) and experiment with photo editing by superimposing images. Using all these skills, students are able to create projects such as short films, a magazine cover and other various forms of visual art.

Revenue to collect: Funds are collected with school fees.

Items/Services to be purchased: Materials to help fabricate videos and photos as well as apps and music from iTunes.

Surplus/Deficit Handling Plan: No surplus is planned. School has provided funds from the technology school budget to help offset costs to parents in every year.

---
