

"...You cannot give students 21st Century skills such as critical and creative thinking without the arts. If we want kids to be able to think outside the box, if we want kids to be able to innovate, we need to expose them to art and artists. Exposure to the arts fulfills several needs. It obviously helps ensure we maintain our culture and create new artists. But it doesn't end there. People who have honed their artistic skills are more observant and are better able to find problems and find creative solutions. Incorporating the arts is also about making sure we have future business people, scientists, doctors and engineers too."
